Y

The diagram consists of two main rectangular areas. On the left is a large, solid gray rectangle. To its right is a large white rectangle, separated by a thin vertical black line. The white rectangle contains several small, faint, stylized symbols that resemble the letter 'N' or 'M', arranged in a grid-like pattern. These symbols are located at various positions within the white area, including near the top, bottom, and center. The overall layout suggests a comparison or relationship between the gray and white regions, possibly representing a mathematical or scientific concept.
